Each Keller Williams office is independently owned and operated.

Opportunity awaits at this delightful period colonial. Perfectly positioned in the Wyoming section, this is a unique chance to take full advantage of a great value and all Millburn has to offer.

Built in 1923, four finished levels include a modern kitchen and baths, gleaming wood floors, large windows and an easy flow made for entertaining and daily living. As mature landscaping artfully frames the exterior, the covered front porch extends a warm welcome. Just imagine lazy afternoons and cool beverages, as friends and loved ones gather on this covered porch. Step inside and you are greeted by a side-hall foyer, where a guest closet accepts your belongings and an elegant turned staircase leads the way to the second level. A wide entry reveals the living room, where guests are comfortably seated. Adjoining the living room is the formal dining

room, featuring a side bay window, ceiling fan and convenient access to the powder room.

The eat in kitchen is fresh and modern, with loads of natural light, ample cabinet storage and granite counters. Appliances are arranged for easy access and space remains for a breakfast table and chairs. From the breakfast area, a door leads to a large deck area and fenced backyard. With plenty of room for a picnic table and lounge chairs, you have all the room you need for al fresco dining and entertaining. The level backyard has a storage shed, and easily accommodates active play and gardening.

The second floor includes three bedrooms and two full baths. The master bedroom has the advantage of a deep bay window and full en suite bath, while the hall bath aptly services the remaining bedrooms through the weekday rush. Positioned on the third level is a multipurpose bonus room with new carpeting and plenty of space for a bedroom, guest room, or an office. Also on this level is a huge cedar closet, perfect for seasonal clothing and another storage closet.

Indoor play and casual enjoyment are found on the lower level, where the recreation room is comfortably finished with a tile floor, track lights and built-in cabinets with shelves. There is unfinished storage space with access to utilities and convenient laundry facilities.

As you conclude your tour of this fine home, you can't help but appreciate the warmth and versatility of these interior spaces and the relaxed outdoor setting. Now add to the mix a fabulous location, where downtown shopping, recreation, top rated schools and NYC commuter trains are only minutes from your front door.
