Step into 49 Dale Drive in Chatham where luxury, elegance and comfort await you

Situated on a picturesque, tree-lined street surrounded by multi-million dollar homes in the Rolling Hill section of Chatham, this magnificent newly constructed, custom built home by S. DeMarzo & Sons -- owned by Joseph DeMarzo Jr. and Samuel DeMarzo, featuring superior crafted luxury homes -- is a true gem. Built to perfection, this home boasts grandeur both inside and outside.

This striking colonial blue wood siding center hall property sits on over ½ acre of land with well manicured trees and shrubs. Walk into an impressive entrance foyer leading to the open, airy and majestic floor plan with over 7,000 SF of living space where every detail has been well planned and constructed. The Living Room features a large bay window and gas burning fireplace with an exquisitely detailed architectural mantel. The Dining Room has lovely appointments including a chair rail, an elegant chandelier and two wall sconces creating the perfect setting for entertaining and formal dinner parties. The ribbon hardwood floors and crown molding on this level add just another touch of elegance.

Central to the open first level floor plan is the Kitchen inspired by any cook's dream. With top-of-the-line Thermador appliances -- refrigerator, 6-burner range, dishwasher, built-in wall oven complete with warming tray and microwave -- the abundant counter space and marble top center island make cooking and entertaining both gratifying and delightful. The Butler's Pantry, adjacent to the kitchen, further adds to its charm and ease of entertaining. A Mudroom with built-in alcoves will keep the house clean and organized. Leading off of the kitchen is the coffered ceiling Family Room with oversized windows overlooking the backyard's blue stone patio. This room complete with a gas fireplace will warm your friend's at a Superbowl Sunday gathering, your family for a wintry "movie night" and come spring, lead out to your lush private tree-lined backyard. Your friends will enjoy music from the built-in first floor and patio sound system. Finally, an impressive Library Room with a wood chair rail and built-in cherry wood bookcases will showcase treasured books, family heirlooms and collectibles.

Two dramatic staircases with cathedral style windows-- one from the center hall and the other from the kitchen -- lead up to the expansive Second Floor. The Master Suite has a spacious built-in closet and vanity. Relax away the cares of the day in the spa-like Master Bath complete with Jacuzzi marble tub and oversized stall shower.

Four additional bedrooms and 3 full baths, including a Jack and Jill bathroom makes this the perfect home for a growing family. Additionally, children will amuse themselves for hours in the brightly lit Gathering Room, an ideal play room.

The Third Floor is open and versatile. It can be used for additional storage, another play area or even a guest bedroom with full bath. And there's more....this house has so many options to grow with your changing family. The finished Lower Level includes a large recreation area with wall-to-wall carpeting and an additional guest room with second kitchen for extended visitors or an in-law suite.
