AVERAGE EXPOSURE TEMP. °F	65 DEGREES

RADON CONCENTRATION = 1.2 pCi/l

R.M.I. provided the owner/authorized agent of the above structure with charcoal canisters to monitor radon levels. R.M.I. provided the owner/authorized agent with detailed instructions (operating procedures) on the proper deployment of the canisters. Furthermore, R.M.I. informed the customer that the validity of the test results would be dependent upon their strict observance of the instructions provided. R.M.I. does not assume any responsibility for maintaining or determining the owner's/authorized agent's compliance.

We at R.M.I. recommend to each customer that they test their structures periodically to determine trends in radon levels for a given building as well as to confirm the accuracy of the initial testing. If the radon concentrations are above 4.0 pCi/l, we strongly recommend that you retest the structure to confirm the results. For free confidential consultation, please call the New Jersey Department of Environmental Protection at 1-800-648-0394. Please read enclosed DEP brochure for additional information.

"This notice is provided to you by an organization or individual certified by the NJDEP to perform radon and/or radon progeny measurements. N.J.S.A. 26:D-73 requires that no certified person disclose to any individual, except the Department of Environmental Protection or the Department of Health, the address or owner of a nonpublic building that the person has tested or treated for the presence of radon gas and/or radon progeny, unless the owner of the building waives, in writing, this right of confidentiality. In the case of a prospective sale of a building which has been tested for radon gas and/or radon progeny, the seller shall provide the buyer, at the time the contract of sale is entered into, with a copy of the results of that test and evidence of any subsequent mitigation or treatment, and any prospective buyer who contracts for the testing shall have the right to receive the results of that test. Any questions, comments, or complaints regarding the persons performing these measurements, or related mitigation, or safeguarding services should be directed to the New Jersey Department of Environmental Protection. Attention: Radon Section, Bureau of Environmental Radiation (1-800-648-0394)."
