Phone:

Based upon the inspection of qualified roofer employed by this firm and upon his recommendation, roof inspection has been completed in a workmanlike manner at the above certification address.

Upon completing inspection of the roof located at 77 Spier Drive South Orange, NJ 07079 Mega Max Construction LLC deems that said roof measuring approximately 3000sq ft. slate natural roof and approxiamtely140 sq ft. flat roof in backside of the house. The slate natural roof appears to be in normal condition according to the originality and the house being constructed in 1931. Said roof is 90-years old. There are no missing slates, the flashing is in good condition. The front part of the home is missing snow guards. Snow guard installation is recommended. Slate natural roofs have a life expectancy of 100 to 125 years.

Roof inspections are accomplished by observing visible elements while walking over roof surface, inspecting framing,

The inspector is concerned only with what he can see at that time.

I hereby certify that I have no interest present or prospective in the property, buyer, lender, or other party involved in this transaction.
