

A sweet little home on a cul-de-sac

55 Karen Way
Summit NJ 07901

Our home

Our family moved into this fun and welcoming neighborhood a couple of years ago. When we bought the house, we loved the hardwood floors, gorgeous wooden doors, little details like the built-in wine rack and lush green yard - yup, wait to see it in the summer! After we moved in, it only got better - what followed was a block party at the cul-de-sac with all of Karen Way and Wade Drive neighbors. Leaving the city, I had wondered what sub-urban life would be and with this neighborhood, it's really the best of both!!

When we added the fence, playset and all the other improvements, we had the intention to stay much longer. However, most of our family is in California and with our workplaces allowing virtual work (and having offices in the West) we decided this move is best for us at this time.

What it's like living here

Spring, summer and fall are active around here - from the farmers market and downtown's activities to kids biking and enjoying water balloon fights around the cul-de-sac, the smell of barbeques and rich greenery, it really feels homely and comfortable. Come winter, Summit's downtown comes alive with its outdoor seating, space heaters and beautiful lighting just a mile away. Being walking distance from Washington elementary and Tatlock park is a huge plus all year round.

We hope that the family that buys this house enjoys it as much as we do!
