Certificate of Completion

Re: 34 Wildwood Drive, Short Hills, NJ 07078

On January 26, 2022, B & G Restoration, Inc. performed an asbestos abatement project at the above site location. The project consisted of the following: **Ground Floor: Encapsulation of open accessible transite duct ends from the following locations: Hallway 1 floor register, bedroom #4 1 floor register & rec room 2 floor registers.**

The asbestos was isolated from adjacent areas within critical barriers of 6-mil polyethylene plastic sheeting secured with duct tape and maintained under HEPA negative air filtration. The entire asbestos insulation was wrapped with a wet-table canvas (lag cloth), and the entire surface of exposed insulation was painted with a bridging encapsulant to lock down invisible fibers. A final air sample was collected and submitted to an accredited analytical laboratory to confirm and document air quality levels of <0.01 fiber/cc. A copy of the final air sample report is attached.

The work was performed by NJ State licensed asbestos workers. This project conformed to all OSHA & EPA rules & regulations pertaining to the removal of asbestos containing material. If you may have any questions, please feel free to call me.
