## 27 Brooklawn Drive Millburn, NJ 07078

The original home is serviced by oil heat, the extensions are serviced by forced air. Thus the upstairs bedrooms, dining room, library, and in-law suite are serviced by oil heat (controlled by the thermostat in the dining room). The kitchen, family room, playroom, sun room, and office are serviced by forced air (each area having its own thermostat). The office and sun rooms also have their own zoned AC. The playroom we supplemented with a mini-split for both heating and cooling. There are 2 AC units to service the home. AirGroup maintains all forced air systems and can be contacted for additional information. Woolley in Maplewood maintains the oil furnace and radiator systems and can also be contacted for additional information.
