This information may be used, among other purposes, to prepare a Solar Panel Addendum to be affixed to and made a part of a contract of sale for the Property.

411 **WATER INTRUSION**

412 Yes No Unknown

413    126. Are you aware of any water leakage, accumulation or dampness, the presence of mold or other similar  
 414 natural substance, or repairs or other attempts to control any water or dampness problem on the  
 415 Property? If yes, please describe the nature of the issue and any attempts to repair or control it: \_\_\_\_\_  
 416 \_\_\_\_\_  
 417 \_\_\_\_\_

If yes, pursuant to New Jersey law, the **buyer** of the real Property is advised to refer to the ‘Mold Guidelines for New Jersey Residents’ pamphlet issued by the New Jersey Department of Health ([njreal.to/mold-guidelines](http://njreal.to/mold-guidelines)) and has the right to request a physical copy of the pamphlet from the real estate broker, broker-salesperson, or salesperson.

423 **FLOOD RISK**

424 Flood risks in New Jersey are growing due to the effects of climate change. Coastal and inland areas may experience significant flooding  
 425 now and in the near future, including in places that were not previously known to flood. For example, by 2050, it is likely that sea-level  
 426 rise will meet or exceed 2.1 feet above 2000 levels, placing over 40,000 New Jersey properties at risk of permanent coastal flooding.  
 427 In addition, precipitation intensity in New Jersey is increasing at levels significantly above historic trends, placing inland properties at  
 428 greater risk of flash flooding. These and other coastal and inland flood risks are expected to increase within the life of a typical mortgage  
 429 originated in or after 2020.

431 To learn more about these impacts, including the flood risk to the Property, visit [njreal.to/flood-disclosure](http://njreal.to/flood-disclosure). To learn more about how to  
 432 prepare for a flood emergency, visit [njreal.to/flood-planning](http://njreal.to/flood-planning).

434 Yes No Unknown

435    127. Is any or all of the Property located wholly or partially in the Special Flood Hazard Area (“100-  
 436 year floodplain”) according to FEMA’s current flood insurance rate maps for your area?

437    128. Is any or all of the Property located wholly or partially in a Moderate Risk Flood Hazard Area  
 438 (“500-year floodplain”) according to FEMA’s current flood insurance rate maps for your area?

439    129. Is the Property subject to any requirement under federal law to obtain and maintain flood  
 440 insurance on the Property?

*Properties in the special flood hazard area, also known as high risk flood zones, on FEMA’s flood insurance rate maps with mortgages from federally regulated or insured lenders are required to obtain and maintain flood insurance. Even when not required, FEMA encourages property owners in high risk, moderate risk, and low risk flood zones to purchase flood insurance that covers the structure and the personal property within the structure. Also note that properties in coastal and riverine areas may be subject to increased risk of flooding over time due to projected sea level rise and increased extreme storms caused by climate change which may not be reflected in current flood insurance rate maps.*

448    130. Have you ever received assistance, or are you aware of any previous owners receiving assistance,  
 449 from FEMA, the U.S. Small Business Administration, or any other federal disaster flood assistance  
 450 for flood damage to the Property?

*For properties that have received federal disaster assistance, the requirement to obtain flood insurance passes down to all future owners. Failure to obtain and maintain flood insurance can result in an individual being ineligible for future assistance.*

454    131. Is there flood insurance on the Property?  
 455 *A standard homeowner’s insurance policy typically does not cover flood damage. You are encouraged to examine your  
 456 policy to determine whether you are covered.*

457    132. Is there a FEMA elevation certificate available for the Property? If so, the elevation certificate  
 458 must be shared with the buyer.

*An elevation certificate is a FEMA form, completed by a licensed surveyor or engineer. The form provides critical information about the flood risk of the Property and is used by flood insurance providers under the National Flood Insurance Program to help determine the appropriate flood insurance rating for the Property. A buyer may be able to use the elevation certificate from a previous owner for their flood insurance policy.*

463    133. Have you ever filed a claim for flood damage to the Property with any insurance provider,  
 464 including the National Flood Insurance Program?

If the claim was approved, what was the amount received? \$ \_\_\_\_\_

466    134. Has the Property experienced any flood damage, water seepage, or pooled water due to a natural  
 467 flood event, such as heavy rainfall, coastal storm surge, tidal inundation, or river overflow?

If so, how many times? \_\_\_\_\_

469 135. Explain any “yes” answers that you give in this section: \_\_\_\_\_
